President of the Union Says They Have Money and Will Use It.

FIRST GENERAL STRIKE IN MANY YEARS

The Men Affected Say They Will Make the Strike One to Be Remembered if Their Scale is Ignored.

Pittsburg, June 30,-President T. J. Disefer of the Amalgamated association of sue an order calling out all union emloyer of the various mills of the Amerian Steel Heep company, known as the will be subject to the call which, in conection with the big strike of the Ameri President Schuefer on Saturday, will affour 0.000. President Schaefer said tonight The impression that only the mills of the American Sheet Steel company are affected by the decision of Saturday is a mistake The workmen in all mills of the American Steel Hoop company are interested and will be notified tomorrow morning that the scale has not been signed and they will quit work. This, I believe, will bring the number of men affected up to 50,000.

It is a matter of regret that the issue has been forced but it now tooks as though it will be a fight to the death. The Amalgamated association is not unprepared for it. We have not had a general strike for many years and in that time we have not been idie. We have money and will use it. I will say now what I said to the general manager of the Sheet Steel company in the collection. I said it it is to be a strike will make if one to be remembered. The officials now dealing with us have out little idea of the extent to which the trike will go once it is started."
